

Technical Specifications

- **Acces**

Required Access for van (6x2x2,65m),(length: 20 feet - width: 7 feet - height: 9 feet) with secure parking space nearby since arriving until departure time.

In case of long distance between props downloading and stage you would provide trolley or personals for props carriage.

- **Public seating**

Audience capacity depends of location and substructures. We perform in semi-circle, circle... or any other possibility!

- **Stage**

The mast is free-standing and requires a hard,flat surface with a 3% slope maximum. Each of the 4 legs of the stand is ballasted with 30kg theatre weights. Total weight of the pole plus artist is about 250kg.

Stage area:

- 18 feet(5,5m) x 18 feet(5,5m)
- Minimum Height: 35 feet (10 m) for 7,5 m hight pole - 38 feet (11,50 m) for 8,5 m hight pole
- We do not use pegs, clips, cables or ropes of any kind

- **Setting up/taking down**

Setting up preparation takes maximum 2 hours, depending on the location.

Taking down the installation takes maximum 1 hour.

If the pole has to be setting during the show, between two acts, above specifications remains valid for preparation.

During the show, setting 2 mn with 6 people. Taking down 1 mn.

- **Equipement provided**

- All props and accessories required for the performance.
- Original sound track on CD or or USB key.
- Original score for orchestra.

- **Equipement we do not provide**

- Sound: a professional-quality audio system, appropriate for the location.
- Lights: for night shows only, contact us for more details.

- **Technical staff**

- Before the show: 1 person needed for the whole duration of the setting up. 3 additional people to help with the raising of the mast only (5 minutes). Staff for sound, light and setting up during the show.
- After the show: packing up requires the same personnel as setting up.

- **Dressing rooms**
